

K-Love is a great service to me and my family by giving positive encouraging music. We love K-Love and support it because it enriches our lives and we enjoy listening to a station with out commercials. K-LOVE is a lifeline for me and I can not live with out this great service.

I am requesting that K-Love remain on the air through FM translators. If this changes we as a community in Carlsbad and throughout the regions and possibly the state could be affected by not receiving a signal for K-LOVE. Carlsbad is a remote little city and I am afraid we will be left without a signal. We as a community can not afford not to have K-LOVE.

I believe that K-LOVE services the entire community and it is to the public interest to have something to lift up the people. We are surrounded by the negative effects of divorce, violence and drugs. I have heard so many people having more hope through the difficult times and change their life because of this station.
